

# Simple Pattern for a Cloth hanger for 16 book sets

## You will need

- 2 lengths of strong fabric 94cm x 90cm
- 4 lengths of strong fabric 90cm x 26cm
- 1 strong cane or rod 90cm long
- Thin rope

---

## Method

1. Hem the top and bottom of the 4 lengths of fabric 90cm x 26cm - a 4 cm turnover has been allowed

2. Pin the 4 lengths of fabric horizontally across one of the large pieces of fabric starting 3cm from the bottom and placing each new length just above the finish of the previous length.

3. Sew all of them in place along the bottom and sides.

4. Mark straight lines vertically at 21cm intervals starting 3cm from the edge.

5. Sew through both thicknesses. This will form 16 pockets.

6. Place the second piece of fabric 94cm x 90cm together with the first piece over the pockets. (Right sides together)

7. Sew along the top edge 3cm from the top.

8. Start on one side 6cm below the top and sew round the further 3 sides with a 3cm seam allowance. Leave a sufficient opening at the top of the third side to be able to turn the fabric inside out.

9. Turn right sides out and press.
10. Sew up raw edges leaving 4 cm open at each side for the cane to go through.
11. Sew a horizontal line 4cm from the top to form a narrow tube for the cane.
12. Sew along all seam lines again through all thicknesses for extra strength.
13. Put the cane through the tube and tie the rope round the protruding ends to make a hanger.
